

PROTECT

---

**Cyber  
on \_ demand**

**a simple  
and direct  
response**

# Airbus Protect, adapts to all your cybersecurity needs

Airbus Protect provides companies, critical national infrastructures and government with reliable and high-performance security products and services to detect, analyse and counter the most sophisticated cyber-attacks.

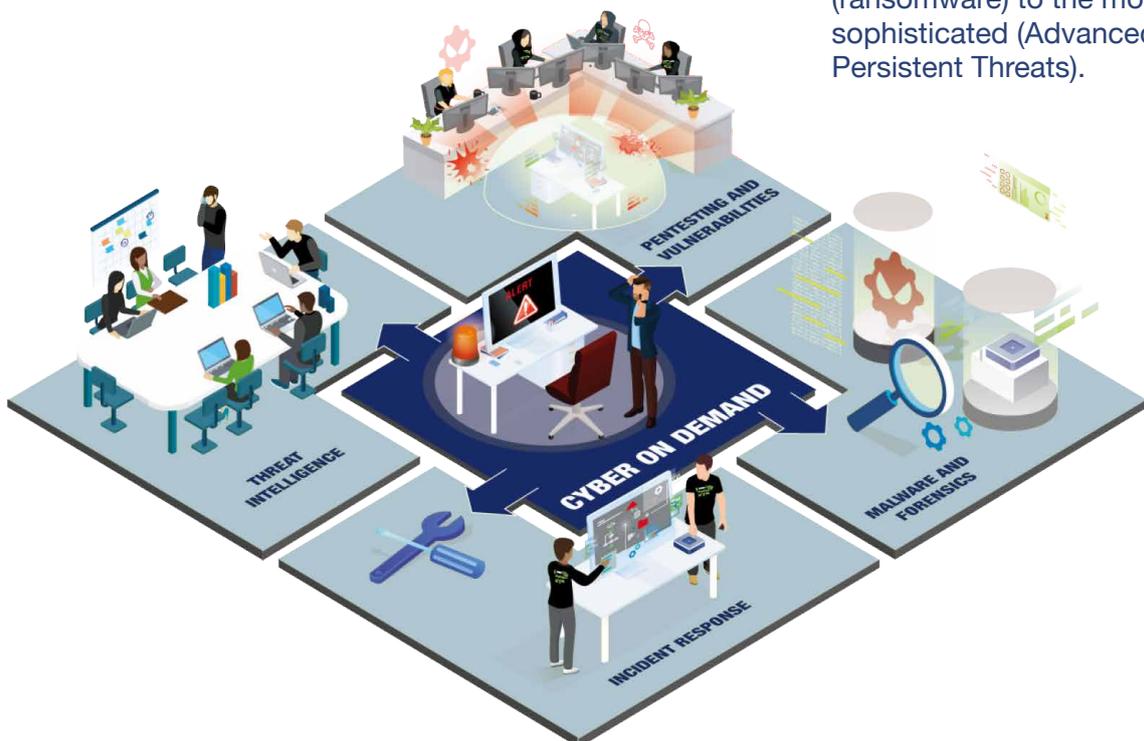

This brochure contains the initial and prepackaged Cyber-On-Demand offer. This cyber solution can be extended to match other custom security and support needs.

- > **Access to a large catalogue of technical expertise** in different cyber areas
- > **Immediate response** for exceptional and/or unscheduled needs
- > **Quick and efficient support in case of crisis** and/or cyber-incidents

## A tailor-made contract to meet all your needs

## Protection against all internal and external cyber threats

Threats, from the most common (ransomware) to the most sophisticated (Advanced Persistent Threats).

# Our services

## Cyber Threat Intelligence

---

- \* Qualification of indicators of compromise (IoC)
- \* Threat Intelligence studies addressing the strategic level (geographical area, sector of activity, trend analysis, etc) or the tactical/operational levels (attacker profiles, etc)
- \* Assessment of the digital exposure of an individual or of an organisation

## Vulnerability Management

---

- \* Intrusion test on a network, a system, a mobile application, a website, an application, etc
- \* Configuration audit
- \* Vulnerability scan on an internal/external perimeter or a web application
- \* Research and identification of vulnerabilities on specific products

## Forensic Analysis

---

- \* Digital investigation of a physical or virtual device
- \* Lifting doubts regarding a workstation or server
- \* Detection of malicious signals on a computer system
- \* Comprehensive malware analysis

## Incident Response

---

- \* Activation of the CSIRT emergency response unit
- \* Incidents categorisation with identification of impacts
- \* Containment and restoration

<b>Global Support</b>	<b>900</b> experts
<b>Proven Experience</b>	<b>30</b> years
<b>Trusted Partners</b>	<b>Governments, Armed Forces, Airbus, CNI</b>

# How the Cyber-On-Demand contract works

Cyber-On-Demand services are based on the units of work consumption (UC) previously ordered and prepaid thanks to the pre-establishment of a framework contract.

## the advantages:

### SAVE TIME

with your immediately usable UC available stock, especially in emergency situations.

### SAVE MONEY

through anticipation and optimisation of all your cyber needs over a whole year.

<b>COD-15</b>	15 UO
<b>COD-25</b>	25 UO
<b>COD-50</b>	50 UO
<b>COD-100</b>	100 UO
<b>COD-200</b>	200 UO
<b>COD-400</b>	400 UO
<i>Validity 1 year</i>	

### EFFICIENCY GAINS

through the experience acquired by our experts on the most critical and complex cases of our customers as well as through the high-performance and state-of-the-art investigation tools at their disposal.
