# Airbus Protect = expert [consultancy] services

Protect your organisation by improving your corporate governance and security posture with our IT/OT consulting services

- > **Fine and precise analysis** of your cyber-risks
- > **Define your information security strategy** and your corresponding program
- > **Governance assistance** (CISO Take-Off)
- > **A holistic approach** integrating people, process and technology

In order to **avoid catastrophic or even insurmountable impacts from cyber-attacks**, we offer our services to:

- > Maintain your production
- > Protect your technologies and R&D
- > Preserve your reputation
- > Ensure regulatory compliance
- > Multidisciplinary nature of our services

## “CISO Take-Off” offer

We propose to build an operational information security governance in 6 months, through the implementation of a “CISO Take-Off” composed of **several consultants (3 to 5) under the leadership of a temporary CISO**. The implementation of a complete and multidisciplinary CISO team will be able to provide you with all the necessary documents and processes to **set up an information security governance and a cyber security roadmap**.

With the foundation built, you will be able to **integrate security into all your projects** (information security certification, risk analyses), raise awareness among your employees, disseminate your security policies and ensure their application through the implementation of audit and control programs. This accelerated rise in maturity will enable you to consider greater cyber defence capabilities (SOC, CTI, CSIRT).

The “CISO Take-Off” will also have the mission to **build your future information security team** and, at the end of the cycle, will remain your privileged contact to advise you during your next steps.

# Our services

## Threat Awareness

- \* Promote a culture of cyber security to all players in the organisation (IT, business, VIPs) via awareness actions: e-learning, newsletters, training, conferences, etc.
- \* Cyber Crisis Management Training Exercises

## Compliance Support

- \* Audits (ISO 27001, SWIFT, NIST, NATO, GDPR, IEC 62443)
- \* Audit of Information Systems Security Audit Service Providers (e.g. PASSI): architecture, organisation, configuration, pentest, source code

## Governance Assistance

- \* Information Security Strategy and Master Plan
- \* Security policy, regulations and control plan
- \* CISO Coaching or “CISO Take-Off” Coaching
- \* Support for your region’s certifications (e.g. LPM, RGS, Mindef, DR II901, ISO 27001, BSI)
- \* Risk mapping
- \* Reporting support (dashboards, KPIs)

## Consolidating Cyber Defence

- \* Strengthening of cyber resilience (BCP/PRA)
- \* SOC Implementation and Governance Strategy (Roadmap)
- \* Incident management (SRMP procedures)

## Enhancing Cyberresilience

- \* Crisis management
- \* Benchmark of solutions
- \* Business continuity (BCP)
- \* Prioritisation of projects through risk analysis (e.g. EBIOS RM) and maturity assessments

## Specific Information Security Studies

- \* Cloud: Strategy, evaluation, architecture
- \* AMI: Strategy, evaluation, architecture
- \* ICS: Strategy, evaluation, architecture
- \* And many others

## The multidisciplinary nature of our services

From risk analysis activities to maturity or compliance audits, our services can cover almost all of the support needs of your information security teams.

Drawing on our know-how in operational security, our consultants rely on various Airbus Protect experts (e.g. architects, SOC analysts, pentesters, cyber

threat intelligence analysts) to deliver pragmatic studies based on genuine experience in the field.

We also offer complete support by providing an entire team called “CISO Takeoff”, which can be deployed in a short period of time and help you quickly gain maturity.

# We're passionate about

- > risk management
- > safety
- > security
- > sustainability.

Our experts guide clients in their transformation while empowering them to build a better future.

Airbus Protect offers end-to-end strategic advisory, consulting services, training programmes, and software solutions to industry, Critical National Infrastructure, governments and institutions.

We bring together **1,200 professionals** from Airbus CyberSecurity – one of Europe's most advanced sovereign cybersecurity players, and APSYS – a leading provider of safety, security and sustainability consulting, IT and business solutions – creating a centre of excellence to meet our clients' evolving needs.

We are a trusted partner with more than **35 years of experience** in making businesses safe, secure and sustainable for today and tomorrow.

**Our mission** is to use our deep knowledge and diverse industry expertise to make a meaningful impact. We enable our clients to concentrate on growing their businesses and building a trusted future, while ensuring their safety, security and sustainability never wavers.

We are dedicated to our employees and our clients. Our relationships are based on deep trust empowering us to tackle complex projects and co-innovate **to build a better future.**
